# AI in Healthcare Training Program

## National Healthcare Datathon

Delivered in partnership

# Overview

## Datathon

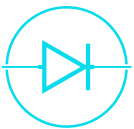

- Sat 15th October 2022 9.30 am-4:00 pm AEST
- Sun 16th October 2022 9:30 am-4:00 pm AEST

## Pitch Networking Night

- Thursday 20th October 2022 5:30pm-9:00pm AEST

Location: Head quartered at the Gold Coast Health and Knowledge Precinct, Cohort HealthTech Innovation Space, with satellite teams nationally coordinated by participating partner organisations.

Cost: \$100.00 in person/\$50 virtual\* (free for course participants who complete all assessment items)

Teams will consist of a clinical lead and a technical lead, other healthcare workers, IT experts, employees, students and industry professionals. The program's hospital partners have committed to providing teams with **real patient data from Australian patients**. These data sets will contain hundreds of thousands of data points covering the below areas of healthcare:

- .ICU
- .Emergency
- .Outpatient
- .Surgical
- .Medication administration
- .Diagnostic/pathology
- .Imaging

The datathon will take place over two weekend days for teams to work with real world data to solve healthcare and medical research challenges culminating in a pitch and networking night where participants will present their ideas to a panel of expert judges. Prizes will be awarded to the top three teams including resources and ongoing support for the teams to continue the development of their idea.

\*financial hardship and other financially limiting factors will be considered and those who want to participate but are unable to pay the full fee can apply for sponsorship in which IntelliHQ will cover a limited number of free registrations.
